By taking into account the accomplishment of the UOBAM SUSTAINABLE EQUITY INDONESIA's long-term investment objective, the Investment Manager has the authority to distribute or not to distribute the investment returns that have been booked into UOBAM SUSTAINABLE EQUITY INDONESIA (if any), and to determine the amount of investment returns to be distributed to the Participation Unit Holder.

In the event that the Investment Manager decides to distribute the investment returns, the distribution of the investment returns will be carried out simultaneously to all Participation Unit Holders in cash or can be converted into new Participation Unit in a proportional amount based on the Participation Unit ownership of each Participation Unit Holder. The form of investment returns distribution in the form of cash or Participation Unit will be carried out consistently by the Investment Manager.

The investment returns distribution in the form of cash or Participation Unit (if any), will be informed in writing to the Participation Unit Holder in advance.

In the event that the Investment Manager decides to distribute the investment returns in the form of Participation Unit, the Investment Manager will instruct the Custodian Bank in writing to convert the investment returns into new Participation Unit using the Net Asset Value on the Bourse Day when such instruction is delivered to the Custodian Bank as soon as possible, no later than 7 (seven) Bourse Days from the date of investment returns distribution.

In the event that the Investment Manager decides to distribute the investment returns in cash, the payment for the investment returns distribution in cash (if any) will be made through book-entry/transfer in Rupiah currency to the account registered in the name of the Participation Unit Holder as soon as possible no later than 7 (seven) Bourse Days from the date of investment returns distribution. All bank fees including book-entry/transfer fees in Rupiah in connection with the payment of the investment returns in the form of cash (if any) will be borne by the Participation Unit Holder.

In the event that the Investment Manager does not distribute the investment returns, the Participation Unit Holders who wish to realise their investment may redeem part of or all their Participation Unit.

CHAPTER VI CALCULATION METHOD OF FAIR MARKET VALUE OF SECURITIES IN UOBAM SUSTAINABLE EQUITY INDONESIA PORTFOLIO

The method of calculation of the Fair Market Value of Securities in UOBAM SUSTAINABLE EQUITY INDONESIA portfolio which are used by the Investment Manager is in accordance with BAPEPAM dan LK Regulation No. IV.C.2 and POJK Concerning Mutual Fund in the Form of Collective Investment Contract, which contain the following provisions:

 - 3) fundamental conditions of the issuer of the Securities.
 - e. In the event that LPHE does not issue a reasonable market price of the Securities of the company that is declared bankrupt or likely to be bankrupt or fails to pay the principal debt or interest of the Securities, as referred to in number 2 letter b paragraph 7 of BAPEPAM dan LK Regulation No. IV.C.2, the Investment Manager shall determine the Fair Market Value of the Securities in good faith and responsibly based on the method that uses conservative principles and is determined consistently by considering:
 - 1) closing price of such Securities;
 - 2) the tendencies of the Securities prices;
 - 3) general interest rate since the last trade (in the event of debt Securities);
 - 4) material Information disclosed with respect to such Securities since the last trade;
 - 5) the estimated price earning ratio, compared to the price earning ratio of similar Securities (in the event of equity Securities);
 - 6) the current interest rate of the debt Securities, compared to other debt Securities with similar credit rating (in the event of debt Securities); and
 - 7) the recent market price of the underlying Securities (if it is derivative Securities).
 - f. In the event that the Investment Manager determines that the fair market price determined by LPHE does not reflect the Fair Market Value of the Securities in the Mutual Fund portfolio that must be dissolved in accordance with the following:
 - 1) ordered by BAPEPAM dan LK in accordance with the laws and regulations in the Capital Market sector; and/or
 - 2) the Net Asset Value is less than IDR 10,000,000,000,- (twenty five billion rupiah) during 120 (one hundred and twenty) consecutive Bourse Days,
the Investment Manager may determine on its own the Fair Market Value of Securities in good

faith and responsibly based on a method which uses conservative principles and is applied consistently.

- g. The Fair Market Value of Securities in the Mutual Fund portfolio traded in a different currency denomination than the currency denomination of the Mutual Fund, must be calculated using the middle exchange rate from the Bank of Indonesia.
2. To implement the provisions as referred to in number 1 letter d and letter e above, the Investment Manager shall at least:
 - a. Own standard procedures;
 - b. Using a reliable calculation basis based on a method that uses conservative principles and is applied consistently;
 - c. Make records and/or working papers regarding the procedure for calculating the Fair Market Value of Securities which includes, among other things, factors or facts that are being considered; and
 - d. Keep such above records for at least 5 (five) years.
3. The calculation of the Mutual Fund Net Asset Value must be based on the fair market value submitted by the Investment Manager.
4. The Net Asset Value per share or Participation Unit shall be calculated based on the Net Asset Value as of the end of the relevant Bourse Day, after the completion of the accounting of the Mutual Fund, excluding the subscription and/or settlement order received by the Custodian Bank at that same day.

LPHE (Securities Pricing Agency) is a party that has obtained a business license from the OJK to assess the securities price in order to establish a fair market price as stipulated in BAPEPAM dan LK Regulation No. V.C.3 on Securities Pricing Agency which is an attachment of Decree of the Chairman of the BAPEPAM dan LK No. Kep-183/BL/2009 dated 30 June 2009.

The Investment Manager and the Custodian Bank will comply with the provisions of BAPEPAM dan LK Regulation No. IV.C.2 mentioned above, with due observance of any regulations, policies and approval from OJK which may be issued or received later on after the issuance of this Prospectus.

CHAPTER VIII INVESTMENT BENEFITS AND KEY RISK FACTORS

UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Holder can obtain the following investment benefits:

a. Professional Management

Investment portfolio management, bank selection, determination of placement period and investment administration require systematic analysis, continuous monitoring as well as quick and accurate investment decisions (market timing). In addition, specific skills and relationships with various parties are needed to be able to manage a diversified investment portfolio. This will take the time and concentration of the Participation Unit Holder if it is done alone by themselves. Through UOBAM SUSTAINABLE EQUITY INDONESIA, the Participation Unit Holder will get the convenience of being free from the work mentioned above and entrusting the work to the professional Investment Manager in their field.

b. Investment Diversification

For investments outside of securities issued by Bank Indonesia or the Government of Indonesia that have the lowest risk, investment diversification needs to be carried out with the aim of reducing investment risk. If the investment funds owned are relatively small, it is difficult to obtain the benefits of diversification without losing the opportunity to obtain good investment returns. Through UOBAM SUSTAINABLE EQUITY INDONESIA where funds from various parties can be pooled, investment diversification can be done more easily.

c. Investment Value Growth Potential

With the accumulation of funds from various parties, UOBAM SUSTAINABLE EQUITY INDONESIA has bargaining power in obtaining higher interest rates and lower investment costs, as well as access to investment instruments that are difficult to do individually. This provides equal opportunity to all Participation Unit Holders to obtain relatively good investment returns according to their level of risk.

d. Easy Investment Disbursement

Open-end Mutual Fund allow the Participation Unit Holder to obtain repayment of their Participation Unit on every Bourse Day by way of Participation Unit redemption to the Investment Manager. This provides a high level of liquidity for the Participation Unit Holder.

Meanwhile, investment risks in UOBAM SUSTAINABLE EQUITY INDONESIA can be caused by several factors, including:

1. Risk of Changes in Economic and Political Conditions

Changes or deteriorating economic and political conditions at home and abroad or changes in regulations can affect the income perspective which can also have an impact on the performance of banks and securities issuers or parties where UOBAM SUSTAINABLE EQUITY INDONESIA invests. This will also affect the performance of UOBAM SUSTAINABLE EQUITY INDONESIA's investment portfolio.

2. Default Risk

The Investment Manager will try to provide the best investment returns to the Participation Unit Holder. However, in extraordinary circumstances, the issuer of securities where UOBAM SUSTAINABLE EQUITY INDONESIA invests or other parties related to UOBAM SUSTAINABLE EQUITY INDONESIA may default in fulfilling its obligations. This will affect the investment returns of UOBAM SUSTAINABLE EQUITY INDONESIA.

3. Liquidity Risk

This risk can occur if there is a simultaneous Redemption by investors (redemption rush) and the Investment Manager has difficulty selling a large portfolio immediately.

After notifying in writing to the OJK with a copy to the Custodian Bank, the Investment Manager may refuse the redemption (repayment) or instruct the Mutual Fund Selling Agent appointed by the Investment Manager (if any) to reject the redemption (repayment) when the followings happen:

1. The Stock Exchange where most of the UOBAM SUSTAINABLE EQUITY INDONESIA Securities Portfolio is traded is closed;
 2. Securities trading of most of the UOBAM SUSTAINABLE EQUITY INDONESIA Portfolio on the Stock Exchange is discontinued; and
 3. Emergency state.
- 4. Risk of Decrease in Net Asset Value of Each Participation Unit**
- The value of each UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit may change due to an increase or decrease in the Net Asset Value of the respective Mutual Fund. The decrease in the Net Asset Value of each Participation Unit may be caused, among others, by changes in the price of securities in the portfolio.
- 5. Risk of Dissolution and Liquidation**
- In the event that (i) it is ordered by OJK; (ii) UOBAM SUSTAINABLE EQUITY INDONESIA is owned by less than 10 (ten) Unit Holders within 120 (one hundred and twenty) consecutive Exchange Days; and/or (iii) UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value becomes less than IDR 10,000,000,000,- (ten billion Rupiah) for 120 (one hundred and twenty) consecutive Bourse Days, then in accordance with POJK Concerning Mutual Fund in the Form of Collective Investment Contract Article 45 letters c and d as well as article 28.1 paragraph (ii), (iii), (iv) of the UOBAM SUSTAINABLE EQUITY INDONESIA Collective Investment Contract, the Investment Manager will conduct dissolution and liquidation, therefore this will affect the investment returns of UOBAM SUSTAINABLE EQUITY INDONESIA.
- 6. Currency Exchange Rate Risk**
- In the event that UOBAM SUSTAINABLE EQUITY INDONESIA invests in Securities denominated in other currency than Rupiah, changes in the exchange rate of currencies other than Rupiah in the market against Rupiah which is the denomination of UOBAM SUSTAINABLE EQUITY INDONESIA, may affect the increase/decrease in UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value (NAV).
- 7. Risk of Regulatory Change**
- Changes or differences in interpretation of prevailing laws and regulations, especially tax regulations regarding the application of taxes on securities that occur after the issuance of UOBAM SUSTAINABLE EQUITY INDONESIA and resulted in the decrease of investment returns, which may be obtained by the Participation Unit Holder.
- 8. Risk of Transactions through Electronic Systems**
- In the event that the (prospective) Participation Unit Holder conducts a transaction through the Electronic System, the (prospective) Participation Unit Holder is requested to pay attention to the risks below:
- (i) Electronic Transactions are carried out through Electronic Systems and/or methods of transmitting Information/Electronic Documents which may be unsafe due to the possibility of unauthorised use of Electronic Systems and/or Electronic Information/Documents for purposes other than Subscription and/or Redemption and/or Transfer of Ownership of Participation Unit including but not limited to illegal interception/tapping and other unlawful actions in the form of changing, adding, subtracting, transmitting, destroying, removing, transferring, hiding Electronic Information/Documents by parties who do not have rights/authorisations.
 - (ii) Error in providing Electronic Information or other data into the Electronic System by the Participation Unit Holder which may result in incorrect transaction processing and wrong transaction end results.
 - (iii) Transactions through the Electronic System may involve parties other than the Investment Manager and Custodian Bank, including the Electronic System Operator. This is related to the possible default risk carried out by parties other than the Investment Manager and Custodian Bank.
 - (iv) In addition, errors and/or disturbances in the Electronic System as well as the transmission of Electronic Information/Documents are also one of the transaction risks that may occur if the transaction is conducted through the Electronic System.
 - (v) The possibility of negligence (prospective) Participation Unit Holder in maintaining the confidentiality of the system ID name and password, which if illegally known by a party other than the (prospective) Participation Unit Holder may result in the other party

having unauthorised access to misuse the Electronic Transaction through the Electronic System by using the name (prospective) of the Participation Unit Holder.

9. The Risk of Non-Operating Foreign Stock Exchanges

In the event that the Foreign Stock Exchange where UOBAM SUSTAINABLE EQUITY INDONESIA Securities invests does not operate, this may affect the UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value and the settlement of payments, both settlement of payments to UOBAM SUSTAINABLE EQUITY INDONESIA and settlement of payments from UOBAM SUSTAINABLE EQUITY INDONESIA to the Participation Unit Holder.

CHAPTER IX SOCIAL FUND PROGRAM

9.1. BRIEF DESCRIPTION OF THE SOCIAL FUND PROGRAM

The Social Fund Program is a program for distributing funds by UOBAM SUSTAINABLE EQUITY INDONESIA to institutions which have programs that support the United Nations' Sustainable Development Goals.

The Sustainable Development Goals are a global action plan agreed by world leaders, including Indonesia, to end poverty, reduce inequality and protect the environment. The SDGs contain 17 goals and 169 targets that have been determined by the United Nations, which are expected to be achieved by 2030. Those 17 goals are (1) No Poverty; (2) No Hunger; (3) Healthy and Prosperous Life; (4) Quality Education; (5) Gender Equality; (6) Clean Water and Proper Sanitation; (7) Clean and Affordable Energy; (8) Decent Work and Economic Growth; (9) Industry, Innovation and Infrastructure; (10) Reducing Gaps; (11) Sustainable Cities and Settlements; (12) Responsible Consumption and Production; (13) Climate Change Management; (14) Ocean Ecosystems; (15) Mainland Ecosystems; (16) Peace, Justice and Strong Institutions; (17) Partnership to Achieve Goals.

The Investment Manager will form a committee whose task is to provide recommendations for the selection of candidates for the Social Fund Program recipients as well as to supervise the institutions that receive the distribution of Social Fund Program funds.

The UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Holder will contribute to the Social Fund Program based on the Participation Unit Class selected by the Participation Unit Holder when subscribing to the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit. The contribution amount of each Participation Unit Class is further stipulated in number 9.6 below.

9.2. APPOINTMENT OF SUSTAINABILITY COMMITTEE (COMMITTEE)

The procedure for selecting and evaluating prospective recipients of Social Funds, the amount of social funds to be allocated to the recipients of the Social Fund Program and payment procedures as well as other matters relating to the distribution of funds related to the Social Fund Program are regulated in a separate document prepared by the Investment Manager. Through the Sustainability Committee ("the Committee").

The Chair and Members of the Committee will be appointed by the Investment Manager, who will come from the Investment Manager's employees. The main task of the Committee is to provide recommendations to the Investment Manager regarding potential recipients of the Social Fund Program who are deemed eligible to receive social funds.

Recommendations from the Committee must be based on an objective assessment for the sole purpose of the Sustainable Development Goals and without coercion from any party. The Committee may not receive compensation in any form from any party.

Before recommending candidates for Social Fund Program recipients who are deemed eligible to receive Social Fund Program funds, the Committee will first do the followings:

- (i) conduct evaluation and due diligence on prospective recipients of the Social Fund Program; and
- (ii) consider the priority of activities and the number of available Social Fund Programs in calculating the amount of Social Funds Program funds to be given to prospective Social Fund Program recipients.

9.3. PROSPECTIVE RECIPIENTS OF SOCIAL FUND PROGRAM

Social Fund Program recipients will be determined after the Social Fund recipient candidates fulfil the requirements and the completion of the pre-selection evaluation process conducted by the Committee and approved by the Investment Manager.

The Investment Manager will notify the Participation Unit Holder of UOBAM SUSTAINABLE EQUITY INDONESIA the name of the recipient of the Social Fund Program. The Committee may add, replace, and reduce potential recipients of Social Fund Program funds with the approval of the Investment Manager. The change will be notified in writing to the Participation Unit Holder of UOBAM SUSTAINABLE EQUITY INDONESIA.

The requirements for the recipient of the Social Fund Program are as follows:

- Is a legal entity in the territory of the Republic of Indonesia;
- Has a Taxpayer Identification Number (NPWP);
- Engages in the fields of humanity, social culture, education, financial literacy and economic empowerment, and/or activities that support the United Nations Sustainable Development Goals;

- Has no relationship with a political party;
- Has experience/track record in the field for at least 1 (one) year; and
- Is not affiliated with the Investment Manager, Custodian Bank, or with members of the Investment Committee.

The Investment Manager has the right to change the above requirements if necessary, by updating the Prospectus.

9.4. PROGRAMS THAT CAN BE FUNDED BY SOCIAL FUND PROGRAMS

Programs owned by recipients of the Social Fund Program, which can be financed by the Social Fund Program include:

1. Activities in the real form of work to help the community and involve the community in supporting the Sustainable Development Goals programs;
2. Training and outreach activities to the community in order to support the Sustainable Development Goals programs;
3. Innovative activities to support Sustainable Development Goals programs;
4. The location of the activity is limited to the territory of the Republic of Indonesia.

Each program owned by the prospective recipient of the Social Fund Program which will be selected to be financed by the Social Fund Program has been reviewed by the Committee.

9.5. SUPERVISION OF THE USE OF SOCIAL FUND PROGRAM FUND

The Committee shall supervise the use of Social Fund Program funds by Social Fund Program recipients:

1. Evaluating the receipt and use of the Social Fund Program given to the recipient of the Social Fund Program periodically (at least once a year).
2. If necessary, make visits to the offices/activities of the recipients of the Social Fund Program to view and inspect activities and projects that have been completed or are being implemented.
3. Inspecting financial reports and other documents related to the use of the Social Fund Program.
4. Submitting suggestions, recommendations, and evaluation results to the Investment Manager.
5. In the event that there are deviations in the activities of the recipients of the Social Fund Program or on the financial statements related to the use of the Social Funds Program funds that cannot be accounted for by the recipient of the Social Fund Program, the Committee will immediately notify the Investment Manager so that the Investment Manager can terminate the agreement with the recipient of the Social Fund Program.

In distributing the Social Fund Program that has been allocated to the recipients of the Social Fund Program, the Investment Manager shall act in good faith conducting a supervision on the distribution of the Social Fund Program and apply the precautionary principle on an ongoing

basis, but the Investment Manager is not responsible for the misuse of the Social Fund Program that has been distributed to recipient of the Social Fund Program.

9.6. SOURCES OF SOCIAL FUND PROGRAM FUNDS

The source of funds for the Social Fund Program comes from the contribution of the Participation Unit Holder which is determined based on the Participation Unit Class of UOBAM SUSTAINABLE EQUITY INDONESIA as follows:

- a) UOBAM SUSTAINABLE EQUITY INDONESIA Class A does not contribute to the Social Fund Program;

In addition to the Participation Unit Transaction Confirmation Letter, the Participation Unit Holder will receive a Monthly Report.

The Participation Unit Transaction Confirmation Letter is proof of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Ownership. The Investment Manager will not issue a certificate as proof of ownership of the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit.

CHAPTER XV
PARTICIPATION UNIT REDEMPTION REQUIREMENTS AND PROCEDURES

15.1. REDEMPTION OF PARTICIPATION UNIT

The Participation Unit Holder may redeem part or all of the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit owned and the Investment Manager is required to repurchase the Participation Unit on every Bourse Day, unless there are conditions stated in this Prospectus.

15.2. PROCEDURES FOR REDEMPTION OF PARTICIPATION UNIT

The Redemption of Participation Unit is carried out by filling out completely and signing the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Redemption Form including stating the Class of Participation Unit to be redeemed addressed to the Investment Manager directly or through the Mutual Fund Selling Agent appointed by the Investment Manager (if any).

The redemption of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit shall be carried out with the terms and conditions stated in the UOBAM SUSTAINABLE EQUITY INDONESIA Collective Investment Contract, Prospectus and UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Redemption Form.

In the event that the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any) under the coordination of the Investment Manager provides an Electronic System, the Participation Unit Holder may redeem the Participation Unit by submitting the Participation Unit Redemption Form in the form of an electronic form using the Electronic System provided by the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any). The Investment Manager must ensure the readiness of the Electronic System provided by the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any) for the redemption of Participation Unit and ensure that the Electronic System complies with the legal provisions in the field of information and electronic transactions, which include providing information and proof of valid transactions, providing electronic documents that can be printed if requested by the Participation Unit Holder and/or OJK, and protecting the interests of Participation Unit Holder who acts in good faith and ensuring that Participation Unit Holder has registered himself/herself on the Electronic System provided by the Investment Manager or the Mutual Fund Selling Agent appointed by the Investment Manager (if any).

The Investment Manager is responsible for administering the Participation Unit Redemption Form using the Electronic System.

The Redemption of Participation Unit that does not comply with or deviates from the terms and conditions mentioned above will not be processed by the Investment Manager.

15.3. MINIMUM LIMIT OF PARTICIPATION UNIT REDEMPTION AND PROVISIONS OF MINIMUM BALANCE OF PARTICIPATION UNIT OWNERSHIP

The minimum limit of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit redemption for each Holder is determined based on the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class as follows:

- a. UOBAM SUSTAINABLE EQUITY INDONESIA Class A sets that the minimum limit of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit redemption for each Participation Unit Holder is IDR 10,000,- (ten thousand Rupiah) for each Participation Unit Holder or the amount of the remaining Participation Unit ownership balance, in the case that the remaining Participation Unit ownership balance is less than the specified minimum limit of Participation Unit redemption;
- b. UOBAM SUSTAINABLE EQUITY INDONESIA Class B sets that the minimum limit of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit redemption for each Participation Unit Holder is IDR 10,000,- (ten thousand Rupiah) for each Participation Unit Holder or the amount of the remaining Participation Unit ownership balance, in the case

- that the remaining Participation Unit ownership balance is less than the specified minimum limit of Participation Unit redemption;
- c. UOBAM SUSTAINABLE EQUITY INDONESIA Class C sets that the minimum limit of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit redemption for each Participation Unit Holder is IDR 10,000,- (ten thousand Rupiah) for each Participation Unit Holder or the amount of the remaining Participation Unit ownership balance, in the case that the remaining Participation Unit ownership balance is less than the specified minimum limit of Participation Unit redemption; and
 - d. UOBAM SUSTAINABLE EQUITY INDONESIA Class D sets that the minimum limit of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit redemption for each Participation Unit Holder is IDR 10,000,- (ten thousand Rupiah) for each Participation Unit Holder or the amount of the remaining Participation Unit ownership balance, in the case that the remaining Participation Unit ownership balance is less than the specified minimum limit of Participation Unit redemption.

The Investment Manager does not set a minimum Participation Unit ownership balance that must be maintained by each Participation Unit Holder.

If the Participation Unit redemption by the Participation Unit Holder is carried out through the Mutual Fund Selling Agent appointed by the Investment Manager (if any) then the Mutual Fund Selling Agent appointed by the Investment Manager (if any), with prior written notification to the Investment Manager, the Mutual Fund Selling Agent appointed by the Investment Manager (if any) may set a minimum limit of Participation Unit redemption which is higher than the minimum limit of Participation Unit redemption above.

15.4. MAXIMUM LIMIT OF PARTICIPATION UNIT REDEMPTION

The Investment Manager has the right to limit the redemption amount of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit within 1 (one) Bourse Day up to 5% (five percent) of the total UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value on the day the Participation Unit redemption request is received. The Investment Manager may use the total Net Asset Value on 1 (one) Bourse Day before the Bourse Day when the request for redemption of Participation Unit is received as an estimate for calculating the maximum limit for Participation Unit redemption on the Bourse Day on which the request for Participation Unit redemption is received.

In the event that the Investment Manager receives or saves the Participation Unit Redemption Form within 1 (one) Bourse Day more than 5% (five percent) of the total UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value issued on the Bourse Day where the Participation Unit redemption request is received, and the Investment Manager intends to exercise its right to limit the amount of Participation Unit redemption, the excess of the request for the Participation Unit redemption by the Custodian Bank based on the Investment Manager's written instructions will be processed and recorded as well as regarded as the Participation Unit redemption order on the following Bourse Day which is determined based on the order of application (first come first served) at the Investment Manager after the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any) notifies the Participation Unit Holder whose request for their Participation Unit redemption cannot be processed on the Bourse Day when the Participation Unit redemption request is received and confirmation from the Participation Unit Holder that the Participation Unit redemption request may still be processed as a Participation Unit redemption request on the following Bourse Day as determined by the order of application (first come first served) at the Investment Manager.

The maximum redemption limit of Participation Unit mentioned above applies accumulatively to the application for investment switching (total number of requests for redemption and investment switching).

15.5. PRICE FOR REDEMPTION OF PARTICIPATION UNITS

The redemption price of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit according to the Participation Unit Class is the price of each Participation Unit on each Bourse Day which is determined based on the UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value per Participation Unit Class at the end of the Bourse Day.

15.6. PROCESSING FOR REDEMPTION OF PARTICIPATION UNITS

If the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Redemption Form which has been complied with in accordance with the terms and conditions stated in the Contract, Prospectus and UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Redemption Form, is received in complete manner by the Investment Manager or the Mutual Fund Selling Agent appointed by the Investment Manager (if any) includes the Participation Unit Class that will be redeemed, until 13.00 WIB (thirteen West Indonesia Time), will be processed by the Custodian Bank based on the UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value per Participation Unit Class at the end of the Bourse Day the same one.

If the Participation Unit Redemption Form which has been fulfilled in accordance with the terms and conditions stated in the Contract, Prospectus and UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Redemption Form, is received in complete manner by the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any) including listing the Participation Unit Class that will be redeemed, after 13.00 WIB (thirteen West Indonesia Time), will be processed by the Custodian Bank based on the UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value per Participation Unit Class at the end of the following Bourse Day.

For the Participation Unit redemption conducted electronically using the Electronic System provided by the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any), if the Participation Unit redemption is made on a day that is not an Bourse Day, the Net Asset Value to be used is Net Asset Value per Participation Unit Class on the following Bourse Day.

15.7. PAYMENT FOR REDEMPTION OF PARTICIPATION UNITS

Payment of the proceeds from the Participation Unit redemption will be made in the form of book-entry/transfer in Rupiah currency to an account registered in the name of the Participation Unit Holder. Book-entry/transfer fees, if any, are borne by the Participation Unit Holder. Payment of proceeds from the redemption of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit shall be made as soon as possible, no later than 7 (seven) Bourse Days from the Participation Unit Redemption Form, which has been completed in accordance with the terms and conditions stated in the UOBAM SUSTAINABLE EQUITY INDONESIA Collective Investment Contract, Prospectus and UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Redemption Form, well received (in complete application) by the Investment Manager or the Mutual Fund Selling Agent appointed by the Investment Manager (if any).

15.8. PARTICIPATION UNIT TRANSACTION CONFIRMATION LETTER

The Custodian Bank through the facilities provided by the Integrated Investment Management System (S-INVEST) service provider will provide a Participation Unit Transaction Confirmation Letter which states, among other things, the number of Participation Units that are resold and owned and the Net Asset Value of each Participation Unit when the Participation Unit is resold and send it to the Participation Unit Holder either directly or through the Investment Manager within 7 (seven) Exchange Days after the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Redemption Form from the Participation Unit Holder is complete and well received (in complete application) by the Investment Manager in accordance with the provisions for the redemption of Participation Units set forth in this Prospectus.

In the event that Unit Holder specifically requests a printed Participation Unit Transaction Confirmation Letter to the Investment Manager or Selling Agent appointed by the Investment Manager (if any), the Participation Unit Transaction Confirmation Letter will be processed in accordance with SEOJK concerning Procedures for Submitting Confirmation Letters or Evidence and Electronic Mutual Fund Periodic Reports through the Integrated Investment Management System, without providing additional fees for UOBAM SUSTAINABLE EQUITY INDONESIA.

15.9. REFUSAL OF REDEMPTION OF PARTICIPATION UNITS

After notifying the Otoritas Jasa Keuangan in writing with a copy to the Custodian Bank, the Investment Manager may refuse to repurchase the Participation Unit of UOBAM SUSTAINABLE EQUITY INDONESIA or instruct the Mutual Fund Selling Agent appointed by the Investment Manager (if any) to refuse to repurchase the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit, if the followings occur:

- (i) the Stock Exchange where most of UOBAM SUSTAINABLE EQUITY INDONESIA's portfolio is traded is closed; or
- (ii) the Securities trade of most of UOBAM SUSTAINABLE EQUITY INDONESIA's securities portfolio on the Stock Exchange is discontinued; or
- (iii) The state of emergency / force majeure as referred to in Article 5 letter k of Law Number 8 of 1995 concerning the Capital Market and its Implementing Regulations.

The Investment Manager is required to notify the above-mentioned matter in writing to the Participation Unit Holder no later than 1 (one) Working Day after the date of the redemption instruction from the Participation Unit Holder is received by the Investment Manager.

During the period of refusal to repurchase the said Participation Unit, the Custodian Bank is prohibited from issuing new Participation Unit and the Investment Manager is prohibited from selling new Participation Unit.

CHAPTER XVI INVESTMENT SWITCHING REQUIREMENTS AND PROCEDURES

16.1. INVESTMENT SWITCHING

The Participation Unit Holder may switch part or all of the investment in each UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class to another UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class or to other Mutual Fund Participation Unit that have investment switching facilities managed by the Investment Manager, and vice versa, in accordance with the terms and conditions stated in the UOBAM SUSTAINABLE EQUITY INDONESIA Collective Investment Contract, Prospectus and in the respective Investment Switching Form.

16.2. PROCEDURE FOR INVESTMENT SWITCHING

The investment switching is carried out by filling in, including listing the Participation Unit Class that is to be switched and submitting the Investment Switching Form to the Investment Manager or through the Mutual Fund Selling Agent appointed by the Investment Manager (if any).

In the event that the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any) under the coordination of the Investment Manager provides an Electronic System, the Participation Unit Holder may perform an investment switching by submitting an Investment Switching Form in the form of an electronic form using the Electronic System provided by the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any). The Investment Manager must ensure the readiness of the Electronic System provided by the Investment Manager or the Mutual Fund Selling Agent appointed by the Investment Manager (if any) for the investment switching and ensure that the Electronic System complies with the applicable legal provisions in the field of information and electronic transactions, which include providing information and proof of valid transactions, providing electronic documents that can be printed if requested by the Participation Unit Holder and/or OJK, and protecting the interests of Participation Unit Holder who acts in good faith and ensuring that Participation Unit Holder has registered himself/herself on the Electronic System provided by the Investment Manager or the Mutual Fund Selling Agent appointed by the Investment Manager (if any).

The Investment Manager is responsible for administering the Electronic System Investment Switching Form.

The investment switching must be carried out in accordance with the terms and conditions stated in the UOBAM SUSTAINABLE EQUITY INDONESIA Collective Investment Contract, Prospectus and in the respective Investment Switching Form. Investment switching by the Participation Unit Holder that deviates from the terms and conditions of the relevant Mutual Fund will be rejected and will not be processed.

16.3. THE PROCESS OF INVESTMENT SWITCHING

The investment switching is processed by the Investment Manager by repurchasing the Participation Unit of the relevant Mutual Fund according to the Participation Unit Class owned by the Participation Unit Holder and selling the Participation Unit from another Participation Unit Class of the relevant Mutual Fund or other Mutual Funds (including the Participation Unit Class from such Mutual Fund, if any) desired by the Participation Unit Holder at the same time by using the Net Asset Value per Participating Unit of each Mutual Fund according to the time the complete switching order is received.

Investment Switching Form which is completed and well received by the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any) including the listing the Participation Unit Class that is to be switched, until 13.00 WIB (thirteen West Indonesian Time), will be processed by the Custodian Bank based on the Net Asset Value per Participation Unit Class (if any) or per Participation Unit of the relevant Mutual Fund at the end of the Bourse Day.

The Investment Switching Form which has been completed and received by the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any) after 13.00 WIB (thirteen West Indonesia Time), will be processed by the Custodian Bank based on the Net Asset Value per the relevant Mutual Fund Participation Unit Class at the end of the following Bourse Day.

For investment switching made electronically using the Electronic System provided by the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any), if the investment switching is made on a day that is not an Bourse Day, the Net Asset Value that will be used is the Net Asset Value on the following Bourse Day.

Whether or not the application for investment switching is accepted depends on the presence or absence of the Participation Unit and the fulfilment of the minimum subscription limit for the Participation Unit of the intended Mutual Funds.

The investment fund of the Participation Unit Holder whose investment switching order has been received by the Investment Manager or the Mutual Fund Selling Agent appointed by the Investment Manager (if any) will be book-transferred by the Custodian Bank into the intended Mutual Fund account, as soon as possible no later than 4 (four) Bourse Day as of the Investment Switching Form is complete and well received by the Investment Manager or the Mutual Fund Selling Agent appointed by the Investment Manager (if any).

16.4. MINIMUM LIMIT OF SWITCHING AND PROVISIONS OF MINIMUM BALANCE

The minimum limit of investment switching for each Participation Unit Holder is determined based on the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class as follows:

- a. UOBAM SUSTAINABLE EQUITY INDONESIA Class A sets that the minimum limit of investment switching for each Participation Unit Holder is IDR 10,000,- (ten thousand Rupiah) for each Participation Unit Holder or the amount of the remaining Participation Unit ownership balance, in the case that the remaining Participation Unit ownership balance is less than the specified minimum limit of investment switching;
- b. UOBAM SUSTAINABLE EQUITY INDONESIA Class B sets that the minimum limit of investment switching for each Participation Unit Holder is IDR 10,000,- (ten thousand Rupiah) for each Participation Unit Holder or the amount of the remaining Participation Unit ownership balance, in the case that the remaining Participation Unit ownership balance is less than the specified minimum limit of investment switching;
- c. UOBAM SUSTAINABLE EQUITY INDONESIA Class C sets that the minimum limit of investment switching for each Participation Unit Holder is IDR 10,000,- (ten thousand Rupiah) for each Participation Unit Holder or the amount of the remaining Participation Unit ownership balance, in the case that the remaining Participation Unit ownership balance is less than the specified minimum limit of investment switching; and
- d. UOBAM SUSTAINABLE EQUITY INDONESIA Class D sets that the minimum limit of investment switching for each Participation Unit Holder is IDR 10,000,- (ten thousand Rupiah) for each Participation Unit Holder or the amount of the remaining Participation Unit ownership balance, in the case that the remaining Participation Unit ownership balance is less than the specified minimum limit of investment switching.

The Investment Manager does not set a minimum Participation Unit ownership balance that must be maintained by each Participation Unit Holder.

If the investment switching is carried out through the Mutual Fund Selling Agent appointed by the Investment Manager (if any) then the Mutual Fund Selling Agent appointed by the Investment Manager (if any), with prior written notification to the Investment Manager, the Mutual Fund Selling Agent appointed by the Investment Manager (if any) may set a minimum limit of investment switching which is higher than the minimum limit of Participation Unit redemption above.

16.5 MAXIMUM LIMIT OF INVESTMENT SWITCHING

The Investment Manager has the right to limit the investment switching amount of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit within 1 (one) Bourse Day up to 5% (five percent) of the total UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value on the day the Participation Unit investment switching request is received. The Investment

Manager may use the total Net Asset Value on 1 (one) Bourse Day before the Bourse Day when the request for investment switching is received as an estimate for calculating the maximum limit for Participation Unit investment switching on the Bourse Day on which the request for Participation Unit investment switching is received.

In the event that the Investment Manager receives or saves the investment switching order within 1 (one) Bourse Day more than 5% (five percent) of the total UOBAM SUSTAINABLE EQUITY INDONESIA Net Asset Value issued on the Bourse Day where the investment switching request is received, and the Investment Manager intends to exercise its right to limit the amount of investment switching, the excess of the request for the investment switching by the Custodian Bank based on the Investment Manager's written instructions will be processed and recorded as well as a regarded as the investment switching order on the following Bourse Day which is determined based on the order of application (first come first served) at the Investment Manager after the Investment Manager or Mutual Fund Selling Agent appointed by the Investment Manager (if any) notifies the Participation Unit Holder whose request for their investment switching cannot be processed on the Bourse Day when the investment switching order is received and confirmation from the Participation Unit Holder that the Participation Unit switching order may still be processed as an investment switching order on the following Bourse Day as determined by the order of application (first come first served) at the Investment Manager.

The maximum limit of investment switching mentioned above applies accumulatively to the application for investment switching (total number of requests for redemption and investment switching).

16.6. PARTICIPATION UNIT TRANSACTION CONFIRMATION LETTER

The Custodian Bank through the facilities provided by the Integrated Investment Management System (S-INVEST) service provider will provide a Participation Unit Transaction Confirmation Letter which states, the amount of Investment Switched and owned and the Net Asset Value of each Participation Unit at the time the investment is switched to be transferred in no later than 7 (seven) Exchange Days after the Investment Switch Form in UOBAM SUSTAINABLE EQUITY INDONESIA from the Participation Unit Holder has been completed and well received (in complete application) by the Investment Manager or Selling Agent appointed by the Investment Manager (if any) in accordance with the Investment Switch processing provisions set forth in this Prospectus.

In the event that Unit Holder specifically requests a printed Participation Unit Transaction Confirmation Letter to the Investment Manager or Selling Agent appointed by the Investment Manager (if any), the Participation Unit Transaction Confirmation Letter will be processed in accordance with SEOJK concerning Procedures for Submitting Confirmation Letters or Evidence and Electronic Mutual Fund Periodic Reports through the Integrated Investment Management System, without providing additional fees for UOBAM SUSTAINABLE EQUITY INDONESIA.

CHAPTER XVII

- iii. In the event that an agreement on the settlement of the Complaint as referred to above is not reached, the Participation Unit Holder and the Investment Manager and/or the Custodian Bank are required to perform Dispute Settlement as regulated further in Chapter XX (Dispute Resolution).

CHAPTER XX DISPUTE RESOLUTION

In the event that an agreement on the settlement of the complaint is not reached, Participation Unit Holders and Investment Managers and/or Custodian Banks will conduct dispute resolution with a dispute resolution mechanism in the form of arbitration through an Alternative Dispute Resolution Institution (LAPS) in the Financial Services Sector that has obtained approval from the OJK with the terms, conditions and procedures as referred to in the POJK Regarding Alternative Dispute Resolution Institutions in the Financial Services Sector and in accordance with regulations regarding dispute resolution procedures issued by LAPS and approved by OJK, and referring to Law Number 30 of 1999 concerning Arbitration and Alternative Settlement Disputes, and all amendments thereto (the "Arbitration and Alternative Dispute Resolution Act") as relevant.

CHAPTER XXI
ESTABLISHMENT AND DISESTABLISHMENT OF PARTICIPATION UNIT CLASS

- 21.1.** The Investment Manager may increase the number of Participation Unit Classes and the number of Participation Unit in each UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class by making amendments to the Collective Investment Contract in accordance with the prevailing laws and regulations and the Collective Investment Contract. Each UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class is offered as of the Participation Unit Class Addition Date.
- 21.2.** In the event that a UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class is ordered to be disestablished by OJK based on the provisions of the applicable laws and regulations, the Investment Manager must:
1. make amendments to the Collective Investment Contract in accordance with the provisions of the prevailing laws and regulations; and
 2. Instruct the Custodian Bank to stop calculating the Net Asset Value of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class which is disestablished on the date the Contract amendments are made. On the same date as the Contract amendments are made and based on written confirmation from the Participation Unit Holder on the disestablished Participation Unit Class, the Investment Manager will instruct the Custodian Bank to make payment for the redemption of the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class which is disestablished to the account registered in the name of the Participation Unit Holder, provided that full payment is made no later than 7 (seven) Bourse Days after the amendments to the Contract.
- 21.3.** In the event that the Investment Manager and Custodian Bank have agreed to disestablish a Participation Unit Class of UOBAM SUSTAINABLE EQUITY INDONESIA, the Investment Manager shall:
1. submit notification of the disestablishment plan of the Participation Unit Class to the Participation Unit Holder in the disestablished Participation Unit Class;
 2. sign an agreement to disestablish the Participation Unit Class with the Custodian Bank;
 3. make amendments to the Contract in accordance with the provisions of the prevailing laws and regulations; and
 4. instruct the Custodian Bank to stop calculating the Net Asset Value of UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class which is disestablished on the date the Contract amendments are made. On the same date as the Contract amendments are made and based on written confirmation from the Participation Unit Holder on the disestablished Participation Unit Class, the Investment Manager will instruct the Custodian Bank to make payment for the redemption of the UOBAM SUSTAINABLE EQUITY INDONESIA Participation Unit Class which is disestablished to the account registered in the name of the Participation Unit Holder, provided that full payment is made no later than 7 (seven) Bourse Days after the Contract change.
- 21.4.** In the event that only 1 (one) Participation Unit Class remains in UOBAM SUSTAINABLE EQUITY INDONESIA, the Participation Unit Class will be disestablished through the dissolution and liquidation mechanism in accordance with Chapter XII of this Prospectus.

**CHAPTER XXII
DISSEMINATION OF THE PROSPECTUS AND FORMS RELATING TO PARTICIPATION UNIT
SUBSCRIPTION**

- 22.1.** Information, Prospectus, Account Opening Form, Prospective Participation Unit Holder Profile Form, and Participation Unit Subscription Order Form (if any) of UOBAM SUSTAINABLE EQUITY INDONESIA can be obtained at the Investment Manager's office, as well as the Mutual Fund Selling Agent appointed by the Investment Manager (if any). Contact the Investment Manager for more information.
- 22.2.** In order to avoid a delay on delivery of the Monthly Report of UOBAM SUSTAINABLE EQUITY INDONESIA or other information on the investment, the Participation Unit Holders are expected to notify any address change as soon as possible to the Investment Manager or to the Mutual Fund Selling Agent appointed by the Investment Manager (if any) where the relevant Participation Unit Holders conduct Participation Unit subscription.

Laporan Auditor Independen

No. 00056/3.0351/AU.1/09/0003-2/1/III/2023

**Pemegang Unit Penyertaan, Manajer Investasi, dan Bank Kustodian
Reksa Dana Saham UOBAM Sustainable Equity Indonesia**

Opini

Kami telah mengaudit laporan keuangan Reksa Dana Saham UOBAM Sustainable Equity Indonesia ("Reksa Dana") terlampir, yang terdiri dari laporan posisi keuangan tanggal 31 Desember 2022, serta laporan laba rugi dan penghasilan komprehensif lain, laporan perubahan aset bersih dan laporan arus kas untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan, termasuk ikhtisar kebijakan akuntansi signifikan.

Menurut opini kami, laporan keuangan terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan Reksa Dana tanggal 31 Desember 2022, serta kinerja keuangan dan arus kasnya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan pada laporan kami. Kami independen terhadap Reksa Dana berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Independent Auditors' Report

No. 00056/3.0351/AU.1/09/0003-2/1/III/2023

**The Unitholders, Investment Manager, and Custodian Bank
Reksa Dana Saham UOBAM Sustainable Equity Indonesia**

Opinion

We have audited the financial statements of Reksa Dana Saham UOBAM Sustainable Equity Indonesia (the "Mutual Fund"), which comprise the statement of financial position as of December 31, 2022, and the statements of profit or loss and other comprehensive income, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Mutual Fund as of December 31, 2022, and its financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Mutual Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Penekanan Suatu Hal

Laporan keuangan terlampir disusun dengan anggapan bahwa Reksa Dana Saham UOBAM Sustainable Equity Indonesia (Reksa Dana) akan melanjutkan operasinya sebagai entitas yang berkemampuan untuk mempertahankan kelangsungan usahanya. Sebagaimana diungkapkan dalam Catatan 19 atas laporan keuangan, pada tanggal 31 Desember 2022, jumlah nilai aset bersih Reksa Dana berjumlah kurang dari Rp 10.000.000.000. Sesuai dengan Kontrak Investasi Kolektif, apabila selama 120 hari bursa (periode relaksasi OJK: 160 hari) berturut-turut nilai aset bersih Reksa Dana berjumlah kurang dari Rp 10.000.000.000 maka Reksa Dana wajib dibubarkan. Hal tersebut telah menimbulkan ketidakpastian signifikan tentang kemampuan Reksa Dana untuk mempertahankan kelangsungan usahanya. Laporan keuangan terlampir tidak mencakup penyesuaian yang mungkin timbul akibat dari ketidakpastian tersebut.

Tanggung Jawab Manajer Investasi dan Bank Kustodian atas Laporan Keuangan

Manajer Investasi dan Bank Kustodian bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh Manajer Investasi dan Bank Kustodian untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam hal penyusunan laporan keuangan, Manajer Investasi dan Bank Kustodian bertanggung jawab untuk menilai kemampuan Reksa Dana dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali Manajer Investasi dan Bank Kustodian memiliki intensi untuk melikuidasi Reksa Dana atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Manajer Investasi dan Bank Kustodian bertanggung jawab untuk mengawasi proses pelaporan keuangan Reksa Dana.

Emphasis of Matter

The accompanying financial statements have been prepared assuming that Reksa Dana Saham UOBAM Sustainable Equity Indonesia (the Mutual Fund) will continue as a going concern. As discussed in Note 19 to the financial statements, as of December 31, 2022, the total net assets value of the Mutual Fund are less than Rp 10,000,000,000. In accordance with Collective Investment Contract, if net assets value of the Mutual Fund during 120 consecutive bourse days (relaxation period from OJK: 160 days) has been less than Rp 10,000,000,000, the Mutual Fund is subjected to liquidation. These conditions raise significant doubt on the Mutual Fund's ability to continue as a going concern. The accompanying financial statements do not include adjustments relating to these uncertainties.

Responsibility of Investment Manager and Custodian Bank for the Financial Statements

Investment Manager and Custodian Bank are responsible for the preparation and fair presentation of such financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as Investment Manager and Custodian Bank determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Investment Manager and Custodian Bank are responsible for assessing the Mutual Fund's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Investment Manager and Custodian Bank either intends to liquidate the Mutual Fund or to cease operations, or has no realistic alternative but to do so.

Investment Manager and Custodian Bank are responsible for overseeing the Mutual Fund's financial reporting process.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan mempengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Reksa Dana.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh Manajer Investasi dan Bank Kustodian.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Mutual Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Investment Manager and Custodian Bank.

- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh Manajer Investasi dan Bank Kustodian dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Reksa Dana untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Reksa Dana tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Conclude on the appropriateness of Investment Manager and Custodian Bank use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Mutual Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Mutual Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Kami mengkomunikasikan kepada Manajer Investasi dan Bank Kustodian mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

We communicate with Investment Manager and Custodian Bank regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

***Liabilitas Keuangan dan Instrumen
Ekuitas***

Liabilitas keuangan dan instrumen ekuitas Reksa Dana diklasifikasikan berdasarkan substansi perjanjian kontraktual serta definisi liabilitas keuangan dan instrumen ekuitas. Kebijakan akuntansi yang diterapkan atas instrumen keuangan tersebut diungkapkan berikut ini.

Liabilitas Keuangan

Liabilitas keuangan dalam lingkup PSAK No. 71 diklasifikasikan sebagai berikut: (i) liabilitas keuangan yang diukur dengan biaya diamortisasi, (ii) liabilitas keuangan yang diukur dengan nilai wajar melalui laba rugi atau melalui penghasilan komprehensif lain. Reksa Dana menentukan klasifikasi liabilitas keuangan pada saat pengakuan awal.

Seluruh liabilitas keuangan diakui pada awalnya sebesar nilai wajar dan, dalam hal pinjaman dan utang, termasuk biaya transaksi yang dapat diatribusikan secara langsung dan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Amortisasi suku bunga efektif disajikan sebagai bagian dari beban keuangan dalam laba rugi.

Liabilitas keuangan yang diukur pada biaya perolehan diamortisasi

Liabilitas keuangan pada biaya perolehan diamortisasi diukur pada jumlah yang diakui saat pengakuan awal dikurangi pembayaran pokok, ditambah atau dikurangi dengan amortisasi kumulatif menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai awal dan nilai jatuh temponya.

Pada tanggal 31 Desember 2022 dan 2021, kategori ini meliputi liabilitas atas pembelian kembali unit penyertaan dan beban akrual.

***Financial Liabilities and Equity
Instruments***

Financial liabilities and equity instruments of the Mutual Fund are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and equity instrument. The accounting policies adopted for specific financial instruments are set out below.

Financial Liabilities

Financial liabilities within the scope of PSAK No. 71 are classified as follows: (i) financial liabilities at amortized cost, (ii) financial liabilities at fair value through profit and loss (FVPTL) or other comprehensive income (FVOCI). The Mutual Fund determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, inclusive of directly attributable transaction costs and subsequently measured at amortized cost using the effective interest rate method. The amortization of the effective interest rate is included in finance costs in profit or loss.

Financial liabilities at amortized cost

Financial liabilities at amortized cost is measured at initial amount minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount.

As of December 31, 2022 and 2021, this category includes liabilities for redemption of investment units and accrued expenses.

Instrumen Ekuitas

Instrumen ekuitas adalah setiap kontrak yang memberikan hak residual atas aset suatu entitas setelah dikurangi dengan seluruh liabilitasnya.

Suatu instrumen keuangan yang mempunyai fitur opsi jual, yang mencakup kewajiban kontraktual bagi penerbit untuk membeli kembali atau menebus instrumen dan menyerahkan kas atau aset keuangan lain pada saat eksekusi opsi jual, dan memenuhi definisi liabilitas keuangan diklasifikasikan sebagai instrumen ekuitas jika memiliki semua fitur berikut:

- a) memberikan hak kepada pemegangnya atas bagian prorata aset neto entitas,
- b) instrumen berada dalam kelompok instrumen yang merupakan subordinat dari semua kelompok instrumen lain,
- c) seluruh instrumen keuangan dalam kelompok memiliki fitur yang identik,
- d) instrumen tidak termasuk kewajiban kontraktual untuk menyerahkan kas atau aset keuangan lain kepada entitas lain selain kewajiban untuk membeli kembali, dan
- e) jumlah arus kas yang diekspektasikan dihasilkan dari instrumen selama umur instrumen didasarkan secara substansial pada laba rugi penerbit.

Saling Hapus Instrumen Keuangan

Aset keuangan dan liabilitas keuangan saling hapus dan nilai netonya disajikan dalam laporan posisi keuangan jika, dan hanya jika, Reksa Dana saat ini memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui tersebut dan berniat untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Puttable financial instruments which include a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset on exercise of the put and meet the definition of a financial liability are classified as equity instruments when and only when all of the following criteria are met:

- a) the puttable instruments entitle the holder to a pro rata share of the net assets,
- b) the puttable instruments is in the class of instruments that is subordinate to all other classes of instruments,
- c) all instruments in that class have identical features,
- d) there is no contractual obligation to deliver cash or another financial assets other than the obligation on the issuer to repurchase, and
- e) the total expected cash flows from the puttable instruments over its life must be based substantially on the profit or loss of the issuer.

Offsetting of Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position if, and only if, the Mutual Fund currently has the enforceable right to offset the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Penurunan Nilai Aset Keuangan

Pada setiap periode pelaporan, Reksa Dana menilai apakah risiko kredit dari instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal. Ketika melakukan penilaian, Reksa Dana menggunakan perubahan atas risiko gagal bayar yang terjadi sepanjang perkiraan usia instrumen keuangan daripada perubahan atas jumlah kerugian kredit ekspektasian. Dalam melakukan penilaian, Reksa Dana membandingkan antara risiko gagal bayar yang terjadi atas instrumen keuangan pada saat periode pelaporan dengan risiko gagal bayar yang terjadi atas instrumen keuangan pada saat pengakuan awal dan mempertimbangkan kewajaran serta ketersediaan informasi, yang tersedia tanpa biaya atau usaha pada saat tanggal pelaporan terkait dengan kejadian masa lalu, kondisi terkini dan perkiraan atas kondisi ekonomi di masa depan, yang mengindikasikan kenaikan risiko kredit sejak pengakuan awal.

Penghentian Pengakuan Aset dan Liabilitas Keuangan

(1) Aset Keuangan

Aset keuangan (atau bagian dari aset keuangan atau kelompok aset keuangan serupa) dihentikan pengakuannya jika:

- a) hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir;
- b) Reksa Dana tetap memiliki hak untuk menerima arus kas dari aset keuangan tersebut, namun juga menanggung kewajiban kontraktual untuk membayar kepada pihak ketiga atas arus kas yang diterima tersebut secara penuh tanpa adanya penundaan yang signifikan berdasarkan suatu kesepakatan; atau

Impairment of Financial Assets

At each reporting date, the Mutual Fund assess whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Mutual Fund uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Mutual Fund compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions, that is indicative of significant increases in credit risk since initial recognition.

Derecognition of Financial Assets and Liabilities

(1) Financial Assets

Financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- a) the rights to receive cash flows from the asset have expired;
- b) the Mutual Fund retains the right to receive cash flows from the asset, but has assumed a contractual obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or

c) Reksa Dana telah mentransfer haknya untuk menerima arus kas dari aset keuangan dan (i) telah mentransfer secara substansial seluruh risiko dan manfaat atas aset keuangan, atau (ii) secara substansial tidak mentransfer atau tidak memiliki seluruh risiko dan manfaat atas aset keuangan, namun telah mentransfer pengendalian atas aset keuangan tersebut.

c) the Mutual Fund has transferred its rights to receive cash flows from the asset and either (i) has transferred substantially all the risks and rewards of the asset, or (ii) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

(2) Liabilitas Keuangan

Liabilitas keuangan dihentikan pengakuannya jika liabilitas keuangan tersebut berakhir, dibatalkan, atau telah kadaluwarsa.

(2) Financial Liabilities

A financial liability is derecognized when the obligation under the contract is discharged, cancelled, or has expired.

d. Pengukuran Nilai Wajar

Pengukuran nilai wajar didasarkan pada asumsi bahwa transaksi untuk menjual aset atau mengalihkan liabilitas akan terjadi di pasar utama untuk aset atau liabilitas tersebut atau, jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Reksa Dana harus memiliki akses ke pasar utama atau pasar yang paling menguntungkan pada tanggal pengukuran.

Reksa Dana memaksimalkan penggunaan input yang dapat diobservasi yang relevan dan meminimalkan penggunaan input yang tidak dapat diobservasi.

Seluruh aset dan liabilitas dikategorikan dalam hierarki nilai wajar sebagai berikut:

- Level 1 - harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik;
- Level 2 - teknik penilaian di mana level input terendah yang signifikan terhadap pengukuran nilai wajar dapat diobservasi, baik secara langsung maupun tidak langsung;
- Level 3 - teknik penilaian di mana level input terendah yang signifikan terhadap pengukuran nilai wajar tidak dapat diobservasi.

d. Fair Value Measurement

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability.

The Mutual Fund must have access to the principal or the most advantageous market at the measurement date.

The Mutual Fund maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs.

All assets and liabilities are categorized within the fair value hierarchy as follows:

- Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 - valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Untuk aset dan liabilitas yang diukur pada nilai wajar secara berulang dalam laporan keuangan, maka Reksa Dana menentukan apakah terdapat transfer di antara level hierarki dengan menilai kembali pengkategorian pada setiap akhir periode pelaporan.

e. Pengakuan Pendapatan dan Beban

Pendapatan diakui ketika kemungkinan besar manfaat ekonomi masa depan akan mengalir ke Reksa Dana dan manfaat ini dapat diukur secara andal.

Pendapatan bunga diakui berdasarkan proporsi waktu dalam laba rugi, termasuk pendapatan dari jasa giro dan instrumen pasar uang setelah mengeluarkan pajak penghasilan final.

Pendapatan dari pembagian hak (dividen, saham bonus, dan hak lain yang dibagikan) oleh emiten diakui pada tanggal *ex (ex-date)*.

Beban investasi termasuk pajak penghasilan final diakui secara akrual dan harian.

Keuntungan atau kerugian investasi yang belum direalisasi akibat kenaikan atau penurunan harga pasar (nilai wajar) serta keuntungan atau kerugian investasi yang telah direalisasi disajikan dalam laba rugi. Keuntungan dan kerugian yang telah direalisasi neto atas penjualan portofolio efek dihitung berdasarkan harga pokok yang menggunakan metode rata-rata tertimbang.

f. Transaksi Pihak Berelasi

Sesuai dengan Keputusan Kepala Departemen Pengawasan Pasar Modal 2A No. Kep-04/PM.21/2014 tanggal 7 Oktober 2014 tentang Pihak Berelasi terkait Pengelolaan Reksa Dana Berbentuk Kontrak Investasi Kolektif, PT UOB Asset Management Indonesia, Manajer Investasi, adalah pihak berelasi Reksa Dana.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Mutual Fund determines whether there are transfers between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

e. Income and Expense Recognition

Income is recognized to the extent that it is probable that the future economic benefits will flow to the Mutual Fund and these benefits can be reliably measured.

Interest income is recognized on a time-proportionate basis in profit or loss, which includes income from cash in banks and money market instruments after excluding final income tax.

Income from distribution of rights (dividends, bonus shares, and other distributable rights) by the issuer company is recognized at *ex-date*.

Investment expenses including final income tax are accrued on a daily basis.

Unrealized gain or loss on investments arising from the increase or decrease in market values (fair values) and realized gain or loss on investments arising from sale of investment portfolios are recognized in profit or loss. To calculate the net realized gain or loss from the sale of investment portfolios, the costs of investment sold are determined using the weighted average method.

f. Transactions with Related Parties

In accordance with the Decision of the Head of Department of the Capital Market Supervisory 2A No. Kep-04/PM.21/2014 dated October 7, 2014 concerning Related Parties in the Management of Mutual Funds in the Form of Collective Investment Contract, PT UOB Asset Management Indonesia, the Investment Manager, is a related party of the Mutual Fund.

g. Pajak Penghasilan

Pajak penghasilan Reksa Dana diatur dalam Surat Edaran Direktorat Jenderal Pajak No. SE-18/PJ.42/1996 tanggal 30 April 1996 tentang Pajak Penghasilan atas Usaha Reksa Dana, serta ketentuan pajak yang berlaku. Objek pajak penghasilan terbatas hanya pada penghasilan yang diterima oleh Reksa Dana, sedangkan pembelian kembali unit penyertaan dan pembagian laba kepada pemegang unit bukan merupakan objek pajak penghasilan.

Pajak Penghasilan Final

Pendapatan yang telah dikenakan pajak penghasilan final tidak lagi dilaporkan sebagai pendapatan kena pajak, dan semua beban sehubungan dengan pendapatan yang telah dikenakan pajak penghasilan final tidak boleh dikurangkan.

Pajak Kini

Pajak kini ditentukan berdasarkan laba kena pajak dalam tahun yang bersangkutan yang dihitung berdasarkan tarif pajak yang berlaku.

h. Peristiwa Setelah Periode Pelaporan

Peristiwa-peristiwa yang terjadi setelah periode pelaporan yang menyediakan tambahan informasi mengenai posisi keuangan Reksa Dana pada tanggal laporan posisi keuangan (peristiwa penyesuaian), jika ada, telah tercermin dalam laporan keuangan. Peristiwa-peristiwa yang terjadi setelah periode pelaporan yang tidak memerlukan penyesuaian (peristiwa non-penyesuaian), apabila jumlahnya material, telah diungkapkan dalam laporan keuangan.

g. Income Tax

Income tax for the Mutual Fund is regulated by the Circular Letter of the Directorate General of Taxation No. SE-18/PJ.42/1996 dated April 30, 1996 regarding Income Tax on Mutual Fund's Operations, and other prevailing tax regulations. The taxable income pertains only to the Mutual Fund's income, while the redemption of investment units and the income distributed to its unitholders are not taxable.

Final Income Tax

Income subject to final income tax is not to be reported as taxable income, and all expenses related to income subject to final income tax are not deductible.

Current Tax

Current tax is determined based on the taxable income for the year computed using prevailing tax rates.

h. Events after the Reporting Period

Post year-end events that provide additional information about the Mutual Fund's statement of financial position at the reporting date (adjusting events), if any, are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to financial statements when material.

3. Penggunaan Estimasi, Pertimbangan, dan Asumsi

Dalam penerapan kebijakan akuntansi, seperti yang diungkapkan dalam Catatan 2 atas laporan keuangan, Reksa Dana harus membuat estimasi, pertimbangan, dan asumsi atas nilai tercatat aset dan liabilitas yang tidak tersedia oleh sumber-sumber lain. Estimasi dan asumsi tersebut berdasarkan pengalaman historis dan faktor lain yang dipertimbangkan relevan.

Pengungkapan berikut mencakup ikhtisar estimasi, pertimbangan, dan asumsi signifikan yang berpengaruh terhadap jumlah-jumlah yang dilaporkan serta pengungkapan dalam laporan keuangan.

Pertimbangan

Pertimbangan-pertimbangan berikut dibuat dalam proses penerapan kebijakan akuntansi Reksa Dana yang memiliki dampak yang paling signifikan terhadap jumlah-jumlah yang diakui dalam laporan keuangan:

a. Mata Uang Fungsional

Mata uang fungsional Reksa Dana adalah mata uang lingkungan ekonomi utama di mana Reksa Dana beroperasi. Mata uang tersebut, antara lain, adalah yang paling mempengaruhi nilai portofolio efek dan unit penyertaan, mata uang dari negara yang kekuatan persaingan dan peraturannya sebagian besar menentukan nilai portofolio efek dan unit penyertaan, dan merupakan mata uang yang mana dana dari aktivitas pendanaan dihasilkan.

b. Klasifikasi Aset Keuangan dan Liabilitas Keuangan

Reksa Dana menentukan klasifikasi aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan menilai apakah aset dan liabilitas tersebut memenuhi definisi yang ditetapkan dalam PSAK No. 71. Aset keuangan dan liabilitas keuangan dicatat sesuai dengan kebijakan akuntansi Reksa Dana sebagaimana diungkapkan dalam Catatan 2.

3. Use of Estimates, Judgments, and Assumptions

In the application of the accounting policies, which are described in Note 2 to the financial statements, the Mutual Fund is required to make estimates, judgments, and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and assumptions are based on historical experience and other factors that are considered to be relevant.

The following disclosures represent a summary of the significant estimates, judgments, and assumptions that affected certain reported amounts and disclosures in the financial statements.

Judgments

The following judgments are made in the process of applying the Mutual Fund's accounting policies that have the most significant effects on the amounts recognized in the financial statements:

a. Functional Currency

The Mutual Fund's functional currency is the currency of the primary economic environment in which the Mutual Fund operates. It is the currency, among others, that mainly influences the values of investment portfolios and units, of the country whose competitive forces and regulations mainly determine the value of investment portfolios and units, and the currency in which funds from financing activities are generated.

b. Classification of Financial Assets and Financial Liabilities

The Mutual Fund determines the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 71. The financial assets and financial liabilities are accounted for in accordance with the Mutual Fund's accounting policies disclosed in Note 2.

c. Cadangan Kerugian Penurunan Nilai Aset
Keuangan

Pada setiap tanggal laporan posisi keuangan, Reksa Dana menilai apakah risiko kredit atas instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal. Ketika melakukan penilaian tersebut, Reksa Dana mempertimbangkan perubahan risiko gagal bayar yang terjadi selama umur instrumen keuangan. Dalam melakukan penilaian tersebut, Reksa Dana membandingkan risiko gagal bayar yang terjadi pada tanggal pelaporan dengan risiko gagal bayar pada saat pengakuan awal, serta mempertimbangkan informasi, termasuk informasi masa lalu, kondisi saat ini, dan informasi bersifat perkiraan masa depan (*forward-looking*), yang wajar dan didukung yang tersedia tanpa biaya atau upaya berlebihan.

Reksa Dana mengukur cadangan kerugian sepanjang umurnya, jika risiko kredit atas instrumen keuangan tersebut telah meningkat secara signifikan sejak pengakuan awal, jika tidak, maka Reksa Dana mengukur cadangan kerugian untuk instrumen keuangan tersebut sejumlah kerugian kredit ekspektasian 12 bulan. Suatu evaluasi yang bertujuan untuk mengidentifikasi jumlah cadangan kerugian ekspektasian yang harus dibentuk, dilakukan secara berkala pada setiap periode pelaporan. Oleh karena itu, saat dan besaran jumlah cadangan kerugian ekspektasian yang tercatat pada setiap periode dapat berbeda tergantung pada pertimbangan atas informasi yang tersedia atau berlaku pada saat itu.

d. Pajak Penghasilan

Pertimbangan yang signifikan dibutuhkan untuk menentukan jumlah pajak penghasilan. Terdapat sejumlah transaksi dan perhitungan yang menimbulkan ketidakpastian penentuan jumlah pajak penghasilan karena interpretasi atas peraturan pajak yang berbeda.

c. Allowance for Impairment of Financial
Assets

At each financial position reporting date, the Mutual Fund shall assess whether the credit risk of a financial instrument has increased significantly since initial recognition. When making the assessment, the Mutual Fund shall use the change in the risk of a default over the expected life of the financial instrument. To make that assessment, the Mutual Fund shall compare the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, including that which is forward-looking, that is available without undue cost or effort.

The Mutual Fund shall measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition, otherwise, the Mutual Fund shall measure the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. Evaluation of financial assets to determine the allowance for expected loss to be provided is performed periodically in each reporting period. Therefore, the timing and amount of allowance for expected credit loss recorded at each period might differ based on the judgments and estimates that are available or valid at each period.

d. Income Taxes

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain due to different interpretation of tax regulations.

Estimasi dan Asumsi

Asumsi utama mengenai masa depan dan sumber utama lain dalam mengestimasi ketidakpastian pada tanggal pelaporan yang mempunyai risiko signifikan yang dapat menyebabkan penyesuaian material terhadap nilai tercatat aset dan liabilitas dalam periode berikutnya diungkapkan di bawah ini. Estimasi dan asumsi didasarkan pada parameter yang tersedia saat laporan keuangan disusun. Kondisi yang ada dan asumsi mengenai perkembangan masa depan dapat berubah karena perubahan situasi pasar yang berada di luar kendali Reksa Dana. Perubahan tersebut tercermin dalam asumsi ketika keadaan tersebut terjadi.

Nilai Wajar Aset Keuangan

Standar Akuntansi Keuangan di Indonesia mensyaratkan pengukuran aset keuangan tertentu pada nilai wajarnya, dan penyajian ini mengharuskan penggunaan estimasi. Komponen pengukuran nilai wajar yang signifikan ditentukan berdasarkan bukti objektif yang dapat diverifikasi (seperti nilai tukar, suku bunga), sedangkan saat dan besaran perubahan nilai wajar dapat menjadi berbeda karena penggunaan metode penilaian yang berbeda.

Nilai wajar portfolio efek diungkapkan pada Catatan 9.

4. Portofolio Efek

a. Efek Bersifat Ekuitas

Pada tanggal 31 Desember 2021, Reksa Dana tidak memiliki portofolio efek dalam efek bersifat ekuitas, sedangkan pada tanggal 31 Desember 2022, rincian portofolio efek dalam efek bersifat ekuitas adalah sebagai berikut:

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial period are disclosed below. The estimates and assumptions are based on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments may change due to market changes on circumstances arising beyond the control of the Mutual Fund. Such changes are reflected in the assumptions when they occur.

Fair Value of Financial Assets

Indonesian Financial Accounting Standards require measurement of certain financial assets at fair values, and the disclosure requires the use of estimates. Significant component of fair value measurement is determined based on verifiable objective evidence (i.e. foreign exchange rate, interest rate), while timing and amount of changes in fair value might differ due to different valuation method used.

The fair values of investment portfolios are set out in Note 9.

4. Investment Portfolios

a. Equity Investments

As of December 31, 2021, the Mutual Fund does not have investment portfolio in equity instruments, while as of December 31, 2022, the details of investment portfolio in equity instruments are as follows:

9. Pengukuran Nilai Wajar

Nilai wajar instrumen keuangan yang diperdagangkan di pasar aktif adalah berdasarkan kuotasi harga pasar pada tanggal pelaporan. Pasar dianggap aktif apabila kuotasi harga tersedia sewaktu-waktu dan dapat diperoleh secara rutin dari bursa, pedagang atau perantara efek, badan penyedia jasa penentuan harga kelompok industri, atau badan pengatur, dan harga tersebut mencerminkan transaksi pasar yang aktual dan rutin dalam suatu transaksi yang wajar. Instrumen keuangan seperti ini termasuk dalam hierarki Level 1.

9. Fair Value Measurement

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer or broker, industry group pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transaction on an arm's lengths basis. These instruments are included in Level 1.

Nilai wajar instrumen keuangan yang tidak diperdagangkan di pasar aktif ditentukan menggunakan teknik penilaian. Teknik penilaian ini memaksimalkan penggunaan data pasar yang dapat diobservasi yang tersedia dan sesedikit mungkin mengandalkan estimasi spesifik yang dibuat oleh Manajer Investasi. Karena seluruh input signifikan yang dibutuhkan untuk menentukan nilai wajar dapat diobservasi, maka instrumen tersebut termasuk dalam hierarki Level 2.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on Investment Manager's specific estimates. Since all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Pengukuran nilai wajar portofolio efek Reksa Dana adalah sebagai berikut:

17. Tujuan dan Kebijakan Pengelolaan Dana Pemegang Unit Penyertaan dan Manajemen Risiko Keuangan

Pengelolaan Dana Pemegang Unit Penyertaan

Pada tanggal 31 Desember 2022 dan 2021, Reksa Dana memiliki nilai aset bersih masing-masing sebesar Rp 7.448.536.687 dan Rp 288 yang diklasifikasikan sebagai ekuitas.

Tujuan Reksa Dana dalam mengelola nilai aset bersih adalah untuk memastikan dasar yang stabil dan kuat untuk memaksimalkan pengembalian kepada seluruh pemegang unit dan untuk mengelola risiko likuiditas yang timbul dari pembelian kembali unit penyertaan. Dalam pengelolaan pembelian kembali unit penyertaan, Reksa Dana secara teratur memantau tingkat penjualan dan pembelian kembali secara harian dan membatasi jumlah pembelian kembali unit penyertaan dalam satu hari sampai dengan 5% dari nilai aset bersih pada hari bursa dilakukannya pembelian kembali.

Tidak terdapat perubahan dalam kebijakan dan prosedur selama tahun berjalan terkait dengan pendekatan Reksa Dana terhadap nilai aset bersih.

Manajemen Risiko Keuangan

Risiko-risiko utama yang timbul dari instrumen keuangan yang dimiliki Reksa Dana adalah risiko harga, risiko kredit, dan risiko likuiditas. Kegiatan operasional Reksa Dana dijalankan secara berhati-hati dengan mengelola risiko-risiko tersebut agar tidak menimbulkan potensi kerugian bagi Reksa Dana.

Risiko Harga

Risiko harga adalah risiko nilai wajar atau arus kas masa depan dari suatu instrumen keuangan akan berfluktuasi karena perubahan harga pasar (selain yang timbul dari risiko suku bunga), baik perubahan-perubahan tersebut disebabkan oleh faktor khusus pada individu penerbit instrumen keuangan, atau faktor yang mempengaruhi instrumen keuangan sejenis yang diperdagangkan di pasar.

Reksa Dana menghadapi risiko harga yang timbul dari portofolio efek yaitu efek ekuitas.

17. Unitholders' Funds and Financial Risk Management Objectives and Policies

Unitholders' Funds Management

As of December 31, 2022 and 2021, the Mutual Fund has net assets value of Rp 7,448,536,687 and Rp 288, respectively, classified as equity.

The Mutual Fund's objectives in managing net assets value are to ensure a stable and strong base to maximize returns to all unitholders and to manage liquidity risk arising from redemptions of investment unit. In the management of redemptions of investment units, the Mutual Fund regularly monitors the level of daily subscriptions and redemptions and limit the total of redemptions of investments units in one day up to 5% of the net assets value on the bourse day of each redemption.

There were no changes in the policies and procedures during the year with respect to the Mutual Fund's approach to its net asset value.

Financial Risk Management

The main risks arising from the Mutual Fund's financial instruments are price risk, credit risk, and liquidity risk. The operational activities of the Mutual Fund are managed in a prudential manner by managing those risks to minimize potential losses.

Price Risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk), whether those changes are caused by factors specific to the individual financial instrument issuer, or factors affecting similar financial instruments traded in the market.

The Mutual Fund is exposed to price risk arising from its investment portfolios i.e. equity instruments.

The Investment Manager manages the Mutual Fund's price risk on a daily basis in accordance with the Mutual Fund's investment objectives and policies and monitors overall market positions on a daily basis.

Sensitivity Analysis

The sensitivity analysis is applied to market risk variables that affect the performance of the Mutual Fund, which are prices. The price sensitivity shows the impact of reasonable changes in the market value of instruments in the investment portfolios of the Mutual Fund to total net assets value, total financial assets, and total financial liabilities of the Mutual Fund.

In accordance with the Mutual Fund's policy, the Investment Manager analyzes and monitors the price sensitivity on a regular basis.

Credit Risk

Credit risk is the risk that the Mutual Fund will incur a loss arising from the issuer of the instruments failure to fulfill their contractual obligations. The Mutual Fund's policy over credit risk is to minimize the exposure to the issuers with perceived of default by dealing only with reputable issuers meeting the credit standards set out in the Mutual Fund's Collective Investment Contract. The Investment Manager closely monitors the creditworthiness of the issuers by reviewing their credit ratings, financial statements, and press releases on a regular basis.

The maximum exposure to credit risk at the statement of financial position date is the carrying value of the financial assets classified as financial assets carried at amortized cost.

Liquidity Risk

Liquidity risk is a risk arising when the cash flow position of the Mutual Fund is not enough to cover the liabilities which become due.
